### REMARKS

Applicant's attorney thanks the Examiner for the careful consideration given to this case. For convenience, the matters raised in the office action are discussed below in the same order as presented by the Examiner.

In reply to paragraph 2 of the action, the drawings are corrected herein with the use of replacement sheets showing amended Figs. 2, 3, 4, 5 and 6. More particularly, the drawings have been corrected by the use prime and double prime designations in connection with corresponding elements in different embodiments. In Fig. 4, the inadvertent numbering of the cylindrical members 2A has been corrected to 1A. Lastly, Figs. 5 and 6 have been labeled as prior art.

The error in claim 4, as noted in paragraph 3 of the action, was corrected in the Preliminary Amendment previously submitted with the filing of the application. Accordingly, the listing of claims herein shows claim 4 to have been previously corrected.

In paragraph 4 of the action, the errors noted in the specification at page 11 have been corrected. Specifically, the cylindrical frames are identified as 2g and 2h at page 11, line 6. Further, separate reference

numerals have been provided for each part disclosed through the use of prime and double prime designations. In accordance with the numbering changes, numerous paragraphs in the specification have been rewritten herein.

In view of the foregoing amendments in the specification and claims, as well as the replacement drawing submitted herewith, it is believed that the application is in condition for final allowance.

If there are any fees required by this Amendment not covered by an enclosed check, or if no check is enclosed, please charge the same to Deposit Account No. 16-0820, Order No. 38964.

Respectfully submitted,

By:
